PROFILE SUMMARY

I am a React developer with experience in a variety of other technologies including Material UI, Node.js, Express.js, Ruby, and Ruby on Rails. With a strong focus on clean code and usability, I have developed a range of web applications from scratch and contributed to several open-source projects. I am passionate about creating intuitive and engaging user experiences and am always seeking out new challenges to further my skills and knowledge. When I'm not coding, you can usually find me listing music, reading, or trying out new recipes in the kitchen.
